

Supercontinuum Spectral Light Source

Product Display

Product Parameters

Parameters	Units	Typical Values
Wavelength	nm	1200~2100
Pulse width	ps	100
Output Power	W	≥ 1
Power Spectral Density	dBm/nm	≥ -10
Polarization state	—	Random polarization
Output method	—	Single-mode fiber
Filter range	nm	1200~1700
Filter bandwidth	nm	≤ 10
Synchronization signal	—	TTL signal output
